

Excited to introduce two new and very special members of the Georgetown Family: Cannon and Reiley. Cannon and Reiley have grown up in schools where they have been "employed" as therapy dogs helping students navigate the intricacies of school life. As labradoodles, they are hypoallergenic and they do not shed. Further, they received certification through Prestige K9 in Elizabeth, CO. They are known for being loving, warm, and friendly - they have even made an appearance on Colorado's 9 news! Both therapy dogs are owned by Mrs. Emma Phipps, Mt. Evans BOCES Mental Health Provider in Clear Creek and one will accompany her on Friday morning.
