

Matt Swanson | Network Security Engineer
Candidate Submission for
Georgetown Community School Board of
Directors

Hello, my name is Matt Swanson. I am running for the Georgetown Community School Board of Directors because I want to help make an already awesome school even better. I will bring a technology first perspective to the board, and I want to advocate for and encourage our kids to

learn to love reading. I believe that working and playing with technology as well as the curiosity that comes along with the joy of reading, induces creativity, logic-based problem solving, and critical thinking, all of which are very important skills for our kids to possess.

I have lived in Georgetown since 2015. I am married to my wife, Megan, and we have two children attending school at GCS. We spend our time in typical Colorado fashion; camping, hiking and climbing in the summer and skiing throughout the winter. I am an active member of the GCS Parent Teacher Organization.

I believe that through thoughtful use of funds and resources, we can make reading fun, and provide all students at GCS with a solid technology foundation which will be critical in our increasingly connected world. I am excited to serve the community on the GCS Board of Directors. Thank you for your vote.
